

# Appendix A

## Fremont FC Facility Map

### Playing Fields

Fremont FC primarily uses the lower soccer field at Memorial Fields. All 11v11 (U13 and above - outlined in “green” on the following map) and 9v9 games (U11/U12 - outlined in “yellow” on the following map). All 7v7 games (U10 and below) will be played on the upper field located to the west of the concession stands outlined in “blue” on the following map. There are two primary parking areas for Memorial Fields: the main one located to the north of the basketball courts and highlighted on the map and additional overflow parking south of the concession stand near the baseball and softball fields (not shown on the map).

### Port-a-Potties and COVID Isolation Area

Port-a-potties will be located southeast of the concession stand and are highlighted on the following map. As mentioned above, during a practice or game, if a player is not feeling well and is exhibiting symptoms which could be associated with COVID-19, they will be walked over to the COVID Isolation Area just south of the basketball courts and shown on the following map. An adult coach/parent will wait with that player until a guardian is able to pick them up and take them home.

### Practices

Fremont FC will be holding practices on both the lower and upper fields. Depending on the day, the lower field may be divided into a “north end” (closer to the main road) and a “south end” (closer to the concession stand). If a team is practicing on the “north end” of the lower field, they should check-in with their coach at Check-in Location #1 (as shown on the map in the “red “ box). At the check-in location, players will present the coach with their completed tickets. Players can be dropped off directly at Check-in Location #1 but all cars need to be parked in appropriate parking locations. Teams practicing on the “south end” of the lower field will check-in at Check-in Location #2. Likewise, teams practicing on the upper field behind the concession stand will utilize Check-in Location #3.

### Games

If teams are playing on the lower field, they should utilize Check-in Location #2 only (no players should be dropped off at Check-in Location #1). If teams are playing on the upper field behind the concession stand, they should utilize Check-in Location #3.

We ask all participants associated with Fremont FC practices and games to follow these instructions and utilize the foot traffic patterns laid out on the following map (“yellow” for the lower field and “red” for the upper field).
